PERSONAL HOUSEHOLD-USE LICENCE

This purchase is licensed to one household. You may print activity pages for children in your household. Please do not share, upload, redistribute or resell this file.

A NOTE FOR GROWN-UPS

Use age-appropriate adult supervision for tools, cooking, outdoor work and every practical activity. Adapt each lesson to your child’s needs, abilities and local safety guidance.

WELCOME TO DAD SCHOOL

Small lessons. Strong hearts.

Fifteen stories to read, talk about and practise together.

Who this book is for

Suggested use: read together with ages 5–9; invite deeper discussion and more independent reflection with ages 10–14. Choose by your child’s readiness, not just age. Short sessions and spoken or drawn answers are welcome.

Every family is welcome

Share these stories with Dad, Mum, a grandparent, carer or another trusted adult. Dad is the story’s teacher; the learning belongs to every family.

A simple reading rhythm

Read a few pages or one short section. Pause for questions and laughter. At the end of the chapter, choose one challenge. Practise it during the week and return to talk about what happened. There is no need to rush.

Meet the crew

Dad is patient and practical, but still learning. Ben likes a plan. Max brings enthusiasm and unexpected ideas. Trevor is the much-loved family dog, with a particular interest in socks.

A note for grown-ups

Chapters 26–28 include illness, the death of a pet and the death of a grandmother. Preview them first and decide when they fit your child. Questions and memory activities are optional. Chapter 30 looks back to an earlier fishing day with Trevor.

Learn together, safely

Adults supervise practical activities and adapt them to the child. Keep needles and small parts secure. Adults manage animal treatment, tools, cooking and water activities. Children can always say they feel unsafe and tell another trusted adult if the first person does not help.

YOUR NEXT ADVENTURE

Contents

Chapters 16–30 continue the Learning from Dad series.
